Benefits	Description																
• Relieve pain and reduce tension + soreness																	
• Recover faster																	
• Repair tissue to boost healing																	
• Enhance performance																	
• Improve circulation, mobility + flexibility																	
• Maximize warm-up + reduce injury risk																	
• Prevent soreness from exercise																	

a body provided with a power source and a processing unit

The accused product has a body provided with a power source and a processing unit:

configured to receive input data and generate a control signal based on the input data,

The accused product is configured to receive input data from the control buttons and generate a control signal to, e.g., turn the accused product on, start percussive therapy, or start heat therapy, based on the input data:

the body including a skin contacting surface maintainable against skin of a user by a force applied by a hand of the user when gripping the body; and

The accused product includes a body including a skin contacting surface maintainable against skin of a user by a force applied by a hand of the user when gripping the body:

a first energy generator element and a second energy generator element coupled to the body,

The accused product has a first energy generator element (*e.g.*, for percussive therapy):

Treat your muscles to deep, powerful massage.

Theragun PRO Plus delivers 16mm percussive massage therapy (our deepest level) to target serious muscle soreness and offer all the recovery benefits of a 15-minute massage in just two minutes.
